self adhesive foil

tela adesiva

The **BONITA** Adhesive foil offers different renovation solutions for different surfaces in your home, in a practical, modern and economical way. The convenience of this item lies in the possibility of renovating, reusing and recycling different objects and areas of your home based on the DIY - Do It Yourself concept.

The **BONITA** Adhesive foil is very easy to apply on many elements of different environments, such as: your home, workplace, gyms, garages, The foil is easily glued on furniture, glass and different objects, all you need to do is follow the application instructions shown on the paper that comes on the reverse side of the sheet. Discover ample possibilities to create new environments and give new life to your surfaces through a wide variety of designs and materials from our collection **BONITA**.

The **BONITA** foil is fully produced in our company in Portugal, and respects all EU rules, such as Reach standards and Oekotex Certification, among others. The fact that the entire production process is in our factory space, gives us the possibility to be highly adaptable to innovation and to meet the excellency of our offer in terms of specific needs of each market. Solutions for different widths, lengths, colours, packaging and design go far beyond what is presented in this catalogue.

A tela Adesiva **BONITA** oferece diferentes soluções de renovação para diferentes superfícies da sua casa, de uma forma prática, moderna e económica. A conveniência deste artigo reside na possibilidade de renovação, reutilização e reciclagem de diferentes objectos e áreas da sua casa baseado no conceito FVM – Faça Você Mesmo.

A tela Adesiva **BONITA** é de muito fácil aplicação em muitos elementos de diferentes ambientes, tais como: a sua casa, local de trabalho, ginásios, garagens,... A tela é facilmente colada em mobiliário, vidros e diferentes objectos, sendo só necessário seguir as instruções de aplicação demonstradas no papel que vêm no reverso da tela. Descubra amplas possibilidades de criar novos ambientes, e dê uma nova vida às suas superfícies através de uma grande variedade de desenhos e materiais da nossa colecção **BONITA**.

A tela Adesiva **BONITA** é totalmente produzida na nossa empresa em Portugal, e respeita todos as regras da UE, tais como as normas Reach e a Certificação Oekotex, entre outras.

O facto de todo o processo produtivo ser no nosso espaço fabril, dá-nos a possibilidade de sermos altamente adaptáveis à inovação e de ir ao encontro da excelência da nossa oferta em termos de necessidades específicas de cada mercado. Soluções para diferentes larguras, comprimentos, cores, embalagens e desenho vão muito além do apresentado neste catálogo.

- 1 PVC Foil
- 2 Glue
- 3 Backing paper

PREPARATION :

Before you decide to decorate the chosen area, please make sure that this surface is thoroughly clean, dry and polished.

ATTENTION :

Do not use the plastic sheeting on surfaces which are too rough, corrugated or overheated.

APPLICATION:

Before peeling off the protective paper, kindly transfer the dimensions of the surface to be decorated onto it, with the help of the small printed squares.

Cut the plastic sheeting slightly larger than the required size due to the possibility of material shrinkage and leaving a margin of half a centimeter.

The sides should slightly overlap. Start by peeling off a small part of backing paper, and stick the self-adhesive plastic on the chosen surface ensuring that it is in the right position.

With the help of the palm of your hand or a dry cloth, continue the process of gluing the foil. If air bubbles occur, please use a needle to pierce them.

The self-adhesive plastic sheeting can be removed and glued again during the application.

Please avoid stretching the sheeting as this can deform the edges of the material.

MAINTENANCE:

The self-adhesive sheeting can be washed as often as desired, using water and mild detergent.

PREPARATIVOS:

Antes de proceder à decoração da área escolhida, assegure-se que a superfície a cobrir se encontra bem limpa, seca e polida.

ATENÇÃO:

Não aplicar a tela adesiva em superfícies demasiado rugosas ou aquecidas.

APLICAÇÃO:

Antes de separar o papel protector, transfira as medidas da superfície a decorar para o papel, com a ajuda das quadriculas. Corte a tela Adesiva um pouco maior que a medida necessária, devido à tendência de encolhimento do material, deixe no mínimo 0,5 cm de margem. As zonas laterais devem sobrepor-se ligeiramente. Comece por retirar uma pequena parte do papel e cole a tela adesiva na superfície a decorar, assegurando-se de que está na posição desejada. Assim continue a separar o restante papel, e com a ajuda da palma da mão, alise a superfície tela Adesiva (pode recorrer à ajuda de um pano). No caso de aparecerem bolhas, utilize uma agulha para as perfurar. A tela pode-se descolar e voltar a colar durante a aplicação. Evite esticar a tela pois as margens podem deformar-se.

MANUTENÇÃO:

A tela adesiva pode ser lavada com água e detergente suave sempre que seja necessário.

woods

madeiras

Wood is a material that is associated with warmth, nature, serenity and purity. From classic and traditional, through rustic to modern designs, our wood collection can beautifully renovate your home furniture and give it a completely new look. The possibilities are endless.

Did you know that based on recent historical knowledge, it is possible to state that the first wood veneer was produced in Ancient Egypt, approximately 3000 B.C. For many centuries carpentry was the most important art in the construction of buildings, whose architecture was strongly influenced by this material.

A Madeira é um material que se associa a ambientes naturais, serenos, puros e acolhedores. Desde clássicas a tradicionais, passando pelo rustico aos desenhos mais modernos, a nossa coleção de Madeiras pode de uma forma muito bonita renovar o mobiliário e objectos da sua casa dando-lhe um ar completamente novo. As possibilidades são ilimitadas.

Sabia que com base nos recentes conhecimentos históricos, é possível afirmar que a primeira lâmina de madeira foi produzida no Antigo Egito, aproximadamente em 3000 a.C. Durante muitos séculos foi a carpintaria a arte mais importante na construção dos edifícios, cuja arquitectura foi fortemente influenciada por este material.

marbles & granites

mármorees & granitos

In our collection, we have chosen inspirations of classic marbles and granites as well as modern designs, that can give your furniture a modern, fresh, natural, clean and minimalist feeling. The beautiful and unflinching elegance of this collection will satisfy the most selective tastes and you will be astonished by the results.

Did you know that one of the most favorable environments for the formation of marbles are the regions of volcanic activity due to high temperatures and pressure. Today we can still observe several testimonies in Europe, Asia, and America, built during the Neolithic, made of blocks of granite, marble, sandstone, etc. The best known are Dolmenos (France) and Menhiros (Germany, England, Italy...). In the Paleolithic, in a region of Russia, there were 200 cities of early man, where great use was made of ornamental stone.

Na nossa coleção, escolhemos inspirações de mármorees e granitos clássicos, bem como designs modernos, que podem dar ao seu mobiliário uma sensação moderna, fresca, natural, limpa e minimalista. A elegância bela e inabalável desta coleção irá satisfazer os gostos mais selectivos e ficará surpreendido com os resultados.

Sabia que um dos ambientes mais propícios para a formação dos mármorees são as regiões de atividade vulcânica devido a altas temperaturas e pressão. Hoje ainda podemos observar vários testemunhos na Europa, Ásia e América, construídos durante o neolítico, feitos de blocos de granito, mármore, arenito, etc. Os mais conhecidos são Dolmenos (França) e Menhiros (Alemanha, Inglaterra, Itália). No paleolítico, numa região da Rússia, existiram 200 cidades do homem primitivo, onde se fez grande uso de rochas ornamentais.

BONITA design

In Design line we are offering limitless possibilities to express your own creativity. Using our wide range of designs, these foils can be applied over different objects like notebooks, boxes, frames, etc. Possibilities are numerous, you just have to use your imagination and go on a creative journey.

Did you know that the history of drawing probably begins at the same time as that of the human being. It was in the Paleolithic, in an environment of nomadism, when groups met to carry out joint hunts or celebrate ceremonies, exchanging ideas, techniques and artistic fashions. As a support they used cave walls or open-air rocky surfaces. With natural pigments they depicted bas-reliefs, engravings, prints and paintings. From the contours to the treatment of masses and movement, in their simplicity, these drawings reveal great creativity.

Neste grupo oferecemos um enorme conjunto de possibilidades para que cada um possa dar liberdade à sua criatividade. Utilizando o nosso grande leque de desenhos, estas telas podem ser aplicadas em diferentes objectos, tais como, livros de notas, caixas, molduras, etc. As possibilidades são numerosas, só têm de usar a sua imaginação e seguir a sua viagem criativa.

Sabia que a história do desenho começa provavelmente ao mesmo tempo que a do ser humano. Foi no Paleolítico, em ambiente de nomadismo, quando os grupos se encontravam para realizar caçadas conjuntas ou celebrar cerimônias, trocas de ideias, de técnicas e de modas artísticas. Como suporte utilizou as paredes das grutas ou superfícies rochosas ao ar livre. Com pigmentos naturais representou baixos relevos, gravuras, impressões e pinturas. Dos contornos ao tratamento das massas e do movimento, na sua simplicidade, estes desenhos revelam grande criatividade.

plain colours

cores lisas

Our basic line and the most minimalistic, is presented in this pallet of different plain colours that come in shiny and mat version. Rich colour pallet gives a choice to everyone's preferences and tastes.

Did you know that it is believed that it was 40000 years ago that pigments were invented using a combination of minerals, animal fat and burnt charcoal. Stones were crushed to powder and mixed with oil or water to make paint.

A nossa linha mais minimalista e mais básica, representada por uma grande variedade de cores tornando a nossa paleta de cores muito diversa, que é comercializada em versão mate e brilhante. Esta rica paleta dá enormes possibilidades de escolha da cor da sua preferência e de melhor adaptabilidade à sua realidade.

Sabia que se acredita que foi há 40000 anos que se inventaram pigmentos usando uma combinação de minerais, gordura animal e carvão queimado. Trituravam-se as pedras até virarem pó e misturavam com óleo ou água para fazer tinta.

BONITA chalkboard tela de giz

The black self-adhesive chalkboard foil is an excellent product that can be used in different situations and has a presentation purpose, whether you use it in your children's rooms as an additional school tool or in the meeting at your work it is a very practical foil that can be easily installed on different surfaces.

Did you know that slate is a bare rock, homogeneous in appearance, and its minerals can only be distinguished with the aid of the microscope? It may or may not have fossils. Slate is usually black or dark grey, due to the presence of a carbonaceous matter or a mineral - graffiti.

A tela de giz autocolante preta é um excelente produto que pode ser utilizado em diferentes situações e tem uma finalidade de apresentação, quer o utilize nas salas dos seus filhos como uma ferramenta escolar adicional ou na reunião no seu trabalho, é uma folha muito prática que pode ser facilmente instalada em diferentes superfícies.

Sabia que a ardósia é uma rocha nua, de aparência homogênea, só sendo possível distinguir os seus minerais com o auxílio do microscópio. Pode ou não apresentar fósseis. A ardósia é geralmente preta ou cinzenta escura, devido à presença de uma matéria carbonosa ou de um mineral - graffiti.

*the chalk is not included (o giz não está incluído)

BONITA transparentes transparentes

A foil with purpose. If you want to achieve a shady look on your windows and not to use curtains, our transparent foil is the right solution for you. It can protect you from unwanted looks giving your windows a completely new appearance with seamless pattern. These foils offer different opportunities to decorate your windows according to your needs and are very easy to install.

Did you know that the Egyptians dispute the invention of glass with other regions. There are records of the use of glass as early as 7,000 B.C. by Syrians, Phoenicians, and Babylonians. The art of glass making is said to have emerged in Mesopotamia at least forty centuries ago.

Uma tela com objectivo. Se pretende obter um aspecto opaco nas suas janelas e não usar cortinas, a nossa folha transparente é a solução certa para si. Pode protegê-lo de olhares indesejados, dando às suas janelas um aspecto completamente novo com um padrão discreto. Estas telas oferecem diferentes oportunidades para decorar as suas janelas de acordo com as suas necessidades e são muito fáceis de instalar.

Sabia que os Egípcios disputam a invenção do vidro com outros povos. Há registos da utilização do vidro desde 7.000 a.C. por Sírios, Fenícios e Babilônios. A arte de fabricar o vidro terá surgido na Mesopotâmia, há pelo menos quarenta séculos.

prime serie
gama alta

Our prime series is dedicated to give a textured look to the surfaces you choose to decorate. Slightly thicker than our standard foil, it gives a very modern and effective metallic look with embossed and impressive touch. Design imitations vary from animal skin look, through metallic textured look to the industrial look.

Did you know that creativity is the ability to transcend traditional ways of thinking or acting, and to develop new and original ideas, methods or objects?.

A nossa série prime é dedicada a dar um aspecto texturizado às superfícies que escolhe para decorar. Ligeiramente mais espessa do que a nossa tela normal, dá um aspecto metálico muito moderno e eficaz com relevo e um toque impressionante. As imitações de design variam desde o aspecto de pele animal, passando pelo aspecto metálico texturado, até ao aspecto industrial.

Sabia que a criatividade é a capacidade de transcender as formas tradicionais de pensar ou agir, e de desenvolver ideias, métodos ou objectos novos e originais?

BONITA metallics metálicos

Metallic collection is a special collection that can create a different and exciting atmosphere in your home. Very effective look can be well achieved if the foil is applied on the kitchen elements, appliances and some types of furniture like a sideboard with drawers or can simply give a new modern look to your old elements.

Did you know that Copper was the first metal to be smelted by prehistoric societies. The oldest known copper object is an oval pendant from Shanidar (Iran), dating from around the tenth millennium BC. However, this piece is an isolated case, as it was not until 3000 years later that cold hammered copper pieces began to be customary.

A coleção metálica é uma coleção especial que pode criar uma atmosfera diferente e excitante na sua casa. Um aspecto muito eficaz pode ser bem conseguido se a folha for aplicada nos elementos de cozinha, aparelhos e alguns tipos de mobiliário como um aparador com gavetas ou pode simplesmente dar um novo aspecto moderno aos seus elementos mais antigos.

Sabia que o cobre foi o primeiro metal a ser fundido pelas sociedades pré-históricas. O objeto de cobre mais antigo conhecido é um pingente oval procedente de Shanidar (Irão), datado por volta do Décimo milênio a.C. Não será contudo esta peça um caso isolado, pois foi só 3000 anos mais tarde que as peças de cobre martelado em frio começaram a ser habituais.

Shiny Gold 20065 9982/10

Shiny Silver 20022 9992/10

BONITA velours veludos

Another special foil from our collection that besides practical has a protective and decorative function. Its soft and velvet touch gives an elegant look through a variety of plain colours. It can be easily used on big surfaces like tables or simply to decorate the inside of your jewellery box. The possibilities for usage are wide but they all give a beautiful new look to the chosen surface.

Did you know know that Velvet is one of the oldest fabrics in the world, it was created in ancient India. In the 14th and 15th centuries, Italy began to produce it later, where the factories in Venice, Florence, Genoa, and Milan gained worldwide fame. The origin of the name comes from the Latin "vellus", which means "hair" or "hair in tufts". In addition to natural fibers such as silk, linen, and cotton, it can also be made of synthetic fibers or a mixture of fibers.

Outra tela especial da nossa coleção que para além de prática tem uma função protectora e decorativa. O seu toque suave e aveludado dá um aspecto elegante através da variedade de cores lisas. Pode ser facilmente utilizada em grandes superfícies como mesas ou simplesmente para decorar o interior da sua caixa de jóias. As possibilidades de utilização são amplas mas todas elas conferem um belo novo visual à superfície escolhida.

Sabia que o Veludo é um dos tecidos mais antigos do mundo, foi criado na antiga Índia. Nos séculos XIV e XV, a Itália passou a produzi-lo mais tarde, onde as fábricas de Veneza, Florença, Gênova e Milão ganharam fama mundial. A origem do nome vem do latim "vellus", que significa "pelo" ou "pelo em tufos". Além das fibras naturais, como seda, linho e algodão, pode ser feito também de fibras sintéticas ou de uma mistura de fibras.

natural cork

cortiça natural

With cork being a natural product in Portugal, we have used the opportunity to create a 100% real cork self-adhesive foil that besides its decorative function can also have a protective function. For example, apply it over your old coffee table and get a real natural cork look in your living room. Not only it does look beautiful, but it also has a resistance characteristic, also very useful in corkboards.

Did you know what cork is exactly? It is the outermost layer of the bark of two different species of oak that grow in the Mediterranean and Iberian region. The cork is harvested when the tree reaches the age of 20, and then the material is harvested every 9 years. The average lifespan of a tree of this type is 150 years.

Sendo a cortiça um produto natural em Portugal, aproveitámos a oportunidade para criar uma verdadeira folha tela-adesiva de cortiça 100% natural, que para além da sua função decorativa também pode ter uma função protectora. Por exemplo, aplique sobre a sua velha mesa de "café" e obtenha um verdadeiro aspecto natural de cortiça na sua sala. Não só tem um aspecto bonito, mas também tem uma característica de resistência, também muito útil em quadros de cortiça.

Sabe o que é exatamente a cortiça? É a camada mais externa da casca de duas espécies diferentes de carvalho que crescem no Mediterrâneo e na região Ibérica. A cortiça é extraída quando a árvore atinge os 20 anos e depois extrai-se o material de 9 em 9 anos. A duração média de vida de uma árvore deste tipo é 150 anos.

- 1 Cork sheet
- 2 PVC Foil
- 3 Glue
- 4 Backing paper

Natural Cork 20100 13200

BONITA fix

Waterproof translucent non-slip non-adhesive fabric. Perfect for kitchen cabinet drawers and shelves. Reduces noise, protects drawers and shelves from unwanted scratches. Easy to clean, it helps keep cabinet surfaces in good condition. Given its impermeability, it is also perfect for placing under areas where water can run off. With the help of scissors or an X-attic it is easily adapted to the desired shape, and its application is extremely simple.

Did you know that we have always tried to create on surfaces, textures identical to those created in nature, so they are a reflection of the way we express our understanding of the world around us.

Tela translúcida impermeável anti-derrapante não adesiva. Perfeita para gavetas e prateleiras dos armários da cozinha. Reduz o barulho, protege as gavetas e prateleiras contra riscos indesejados. De fácil limpeza ajuda a manter as superfícies dos armários em bom estado. Dado a sua impermeabilidade também é perfeita para colocar sob áreas onde possa escorrer água. Com a ajuda de uma tesoura ou de um X-ato facilmente se adapta ao formato desejado, e a sua aplicação é extremamente simples.

Sabia que desde sempre se tentou criar nas superfícies, texturas idênticas às criadas na Natureza, logo elas são o reflexo do modo como expressamos o nosso entendimento do mundo que nos rodeia.

BONITA self-adhesive sheeting is among ADRETA PLÁSTICOS's range of products.

It is a plastic film meant for sticking on various non-porous surfaces, protecting and decorating at one's will the most varied items.

For optimal results kindly note use instructions:

- **BONITA** self-adhesive sheeting comes with gridded (1cmx1cm) release backing paper for aiding the required size measuring or outlining the shape you want to cut, that we advise be allowed a small extra margin at cutting;
- Detach a small portion of the release paper, and position the adhesive on the surface you want to cover;
- The release paper is to be removed slowly while you gradually smooth the contact film. To avoid wrinkles or air bubbles we suggest using a cloth or a ruler;
- When applying you may still amend positioning by carefully removing and re-positioning;
- For optimal finish we suggest checking whether excess foil requires trimming;
- NOTE: when applying please do not stretch the film in order to avoid shrinkage.

A tela adesiva **BONITA** pertence à gama de produtos fabricados pela ADRETA PLÁSTICOS

É uma tela plástica concebida para colar em diversas superfícies não porosas, protegendo e decorando à sua vontade.

Instruções de Utilização:

- A tela adesiva **BONITA** vem com suporte de papel quadriculado (1cmx1cm) para ajudar a marcar o tamanho ou a forma que deseja cortar, que aconselhamos a alargar ligeiramente;
- Descole uma pequena porção de papel de suporte e posicione o filme adesivado sobre a superfície que deseja forrar;
- O papel de suporte deve ser removido lentamente enquanto alisa a superfície do filme. Para evitar rugas ou bolhas de ar aconselhamos o uso de um pano ou de uma régua;
- Na aplicação pode emendar o posicionamento cuidadosamente removendo e voltando a aplicar;
- Para acabamento perfeito sugerimos que verifique se é necessário aparar excessos nas extremidades;
- ATENÇÃO: ao aplicar não estique o filme a fim de não potenciar o seu posterior encolhimento.
