PT A nossa gama mais minimalista, mas provavelmente a de maior facilidade de adaptação a todos os espaços, áreas, diferentes utilizações.

Apesar do seu aspeto simples, não é por isso que lhe dedicamos menos cuidado, pois é produzida segundo elevados padrões de qualidade, quando comparada sobretudo com outras opções no mercado.

Esta tela de cor lisa, que o nosso processo de fabrico lhe garante um ligeiro brilho e elegante toque, aliada a uma tela branca, colocada entre a tela de cor e o falso-tecido, que não deixa que a cor seja visível no verso, dando-lhe para além de tudo uma maior resistência e a distingue das demais.

EN Our most minimalistic line which probably has the biggest possibility to adapt to all the spaces and to different usages.

Despite its simple appearance, equal care is taken. This article is produced according to the highest standards of quality when being compared to other options available on the market. The plain color sheet, that our production process gives a slight shine effect and an elegant look, which aligned with a white foil that is placed between the color foil and the non-woven fabric, doesn't allow the color to be visible on the reverse side. At the same time, it gives a better resistance to the material allowing for the product to be distinguished.

PT Qualidade standard com toque texturado.

A cuidada escolha dos motivos que melhor combinam com o tipo de toque pretendido, é um dos objetivos e um dos maiores desafios desta gama.

Existem diferentes tipos de textura/gravação que podem ser utilizadas na produção. Neste catálogo apresentamos 2 soluções, uma a que damos o número 98, que se assemelha muito a um efeito tipo linho, suave e delicado, e uma segunda a que damos o número 90, que é mais forte, mais pronunciada, mais poderosa.

EN Standard quality with beautiful and textured touch. One of the objectives when creating this line was a careful selection of motives that combine type of touch that we wanted to achieve.

There are different types of textures that can be used in this production. In our catalog we are presenting two solutions, one that we have given number 98, a line which has a linen and delicate effect and other that we have given number 90, a line that is stronger and has more accentuated effect.

BONITA FELTEX

PT O topo de gama da coleção de mesa Bonita, composta por 3 telas distintas. Uma tela estampada protegida por uma tela de cristal transparente, e como suporte um tecido em algodão.

A tela de Cristal no topo da tela estampada, protege o estampado e mantêm-no com as suas características originais por muito mais tempo. Esta proteção não lhe é somente útil durante a utilização da tela, mas também quando colocada no ponto de venda assim como na embalagem.

A tela de algodão no verso, confere-lhe um toque muito mais suave que o habitual não-tecido, assim como a gravação na tela final, que lhe proporciona uma sensação muito agradável ao toque.

EN Our highest quality in Bonita collection, a sheet that consists of three different sheets joined in one. A printed foil is laminated with glass clear coating and as a support has a backing in cotton fabric.

Glass clear coating that is placed over the printed foil protects the print and maintains its original characteristics for a longer period of time. This special type of protection is not only useful while the sheet is being used, but also when the sheet is exposed at the point of sale or when inside of the packing.

The cotton textile on the reverse side ensures a much more soft touch than the usual non-woven, as well as the engraving on the final foil, that gives a pleasant sensation to the touch.

ADRETA BRILHO

PT Um dos nossos artigos mais económicos, também a mais clássica das telas estampadas plastificadas, a tão conhecida noutros tempos como a tela encerada, mesmo assim de qualidade sempre inquestionável.

Possibilidade de utilização também muito diversa, desde decorar, forrar, proteger, tapar.

EN One of our most economic articles but at the same time a printed sheet with the biggest tradition in the market , which in the old days has been known as an oilcloth but still an article with unquestionable quality.

An article with extremely diverse range of usage possibilities, from decorating, protecting, covering to lining.

“There are no bad designs nor bad colors, there are imperfect moments to understand them.”
